

# byrd™ knife

**FIREBYRD**

- Hollow-ground blade
- Lanyard hole
- Right-hand, tip-down steel pocket clip

## BY14 FIREBYRD

Having a sharp cutting blade, a lighter and a bottle opener, are essential implements needed by every camper, hiker, outdoorsman and cigar appreciator. The Firebyrd's design incorporates all three tools in a compact package. It has a notch-joint (non-locking) drop-point blade that opens/closes one-handedly. Its hollow aluminum handle holds a standard-sized lighter (not included) with peek-a-boo cutouts revealing the lighter inside. Simply open the beverage of choice with the bottle opener located on one end. Let the party begin.

## FEATURES

- Straight Razor Edge Blade
- One Hand Open/Close
- Clips to Your Pocket
- Bottle Opener
- Holds a Standard-sized Lighter (lighter not included)

**Ships in a 12-pack box that  
assembles into a standing counter display**

## BY13 B-TOOL HARP

It's called a Harp Tool because its silhouette is evocative of the musical instrument. The byrd Harp has eight functional tools which rotate out individually from an outer ring and snap open, ready for use. Included: a slotted-head and Philips-head screwdriver, punch/awl, gimlet, saw, corkscrew, file and small/large-head hammer that doubles as a bottle opener. When folded flat the Harp slips into a leather carrying case. It's like having a micro toolbox for your car, boat, backpack or bike.
